

Beacon Industries (Newington, CT) is in the process of strengthening its manufacturing workforce by adding to our skilled team of machinists in Milling and Turning as well as other manufacturing support departments. If you have experience setting up your own machines, inspecting your own parts, and machining quality parts in the aerospace field, we would like to talk with you!

AVAILABLE POSITIONS:

- 1st & 2nd shift CNC Milling Machinist
- 1st & 2nd shift CNC Turning Machinist

POSITION SUMMARY:

The machinist will use their skills and expertise to machine quality parts using CNC Milling and/or Turning equipment. They are also responsible for in-process inspection, and ensuring the parts conform to the blueprint specifications. Some positions require the operation of two or more machines simultaneously. Some basic preventive maintenance and work area upkeep is expected.

DUTIES & RESPONSIBILITIES:

- Setup and operate CNC Lathe and/or CNC Milling to fabricate quality parts.
- Read and interpret blueprints using GD&T symbols. Apply basic math and geometry skills.
- Performs in-process inspection using a variety of hand tools including machine tools, gages, and precision measurement instruments to ensure parts conform to blueprint.
- Start and observe machine operation to detect malfunctions or out of tolerance machining and make adjustments to controls as necessary.
- Perform routine checks and basic preventive maintenance on machines. Keeps work areas neat, organized and clean.
- Participate in continuous improvement projects, and root-cause analysis investigations.

QUALIFICATIONS:

- +5 years of experience performing setups and operating CNC Lathe and/or CNC Milling, and/or Broaching machines and machining centers to fabricate parts. Aerospace manufacturing environment experience preferred.
- +5 years of experience applying edits and offsets using G-Code in Fanuc or GE controls.
- +5 years of experience working with GD&T, blueprints, and operation sheets.
- +5 years of experience working with precision measurement instruments used to perform in-process inspections to certify parts are machined to customer specifications.

BEACON EMPLOYEES ENJOY:

- Career opportunities in Advanced Manufacturing
- Friendly & Professional Work Environment
- Strong Compensation Packages

- Lucrative Shift Differential Pay for 2nd shift
- Generous Paid Time Off & Paid Holidays
- Excellent Health Benefits Package
- Plus 401K & Tuition Reimbursement

If you're looking to join a company that can give you the opportunity to work with a team of skilled professionals, state of the art machinery, aerospace-grade materials, and cutting edge technology....look no further. Our production team and machinists manufacture some of the most complex parts in our industry, and now you have the opportunity to join our team!

For consideration, please send a copy of your resume to HR@beacongp.com and complete the application process.

ABOUT US:

Beacon Industries has built its reputations within the aerospace industry for being a world class manufacturer of major rotating components, supporting turbine-engine OEM companies around the world. We manufacture and supply our customers with the most complex components, built to their exacting standards, by some of the most experienced people in the aerospace manufacturing industry - and this is the main reason for our continued success.

For over 65 years, our customers have trusted Beacon to manufacture their products. This trust and responsibility has been earned over the years by supplying quality parts, on time, and within budget. Beacon is able to provide this level of service due to its unique capacity in Broaching, Grinding, CNC turning, and (5 axis) milling supporting the manufacturing of small and large parts alike. We have an array of supporting services in-house which include Design, Programming, and Quality Engineering support.

In addition to and in support of our these resources, Beacon has a full complement of precision machinery and conventional equipment paired with an wide selection of in-house services which include CMM, FPI & MPI NDT Inspection, Spin Balance Testing, Shot-Peening, and much more!

Beacon Industries is a privately held, woman-owned company, and is a US DOD classified small business with NADCAP, ISO9001-2008 and AS9100C certifications.

Beacon Industries offers competitive wages and benefit packages plus 401K, tuition reimbursement, and second shift differential pay.

Beacon Industries is an Equal Opportunity Affirmative Action Employer. EOE M/F/D/V

Only those who meet the minimum qualifications will be contacted for an interview.
