

Beacon Industries (Newington, CT) has an opening for a **Production Supervisor** to join its leadership team and help organize and execute operations of our second shift. This is a great opportunity for someone with a deep understanding of the Aerospace Manufacturing industry who enjoys working within a fast-paced environment, and likes to work as a team to find solutions to everyday-problems associated with production.

POSITION SUMMARY:

Responsible for the second shift operations companywide. Drives the company's production schedule and sets the course of work providing instructions for all second shift production workers. Management team representative responsible for upholding company policies & values, quality & safety standards, and providing general supervision to the shift crew. Must be available to work day shifts as needed, and run shift responsibilities during overtime hours (which could include Saturday, and on occasion, Sunday).

DUTIES & RESPONSIBILITIES:

- Executes Production Plan and provides capacity information to assist in Production Planning.
- Assigns and directs all activities of hourly production workers to meet production schedules and ensure quality standards and production processes are followed.
- Provides technical expertise and assistance to production team, and uses his/her experience to drive a LEAN Manufacturing environment.
- Works with management & engineering to implement process changes/modifications, and conduct root cause investigations to develop corrective actions.
- Mentors, trains, and actively participates in the development of the workforce.
- Upholds and enforces company values, standards, and policies while leading by example.

QUALIFICATIONS:

- Bachelor's Degree in engineering field preferred, and/or a combination of +5 years' experience in a leadership/management role within the aerospace manufacturing field required.
- +5 years of experience supervising and/or directing employees in CNC Turning and/or CNC Milling departments within an Aerospace Manufacturing environment required.
- Knowledge of Shop Floor manufacturing process, quality, tooling, and CNC Machine Technology.
- Strong leadership skills with the ability to effectively interact and communicate professionally with all levels companywide including customers.
- +5 years of experience driving LEAN culture and Safety initiatives highly desirable.
- Working knowledge of MS Office (Excel, Word, Outlook), MS Windows, and other MS software.
- Strong commitment to driving out waste, process improvement, customer satisfaction, and high-quality manufacturing.

BEACON EMPLOYEES ENJOY:

- Career opportunities in Advanced Manufacturing
- Friendly & Professional Work Environment
- Strong Compensation Packages
- Lucrative Shift Differential Pay for 2nd shift
- Generous Paid Time Off & Paid Holidays
- Excellent Health Benefits Package
- Plus 401K & Tuition Reimbursement

If you're looking to join a company that can give you the opportunity to work with a team of skilled professionals, state of the art machinery, aerospace-grade materials, and cutting edge technology....look no further. Our production team and machinists manufacture some of the most complex parts in our industry, and now you have the opportunity to join our team!

For consideration, please send a copy of your resume to HR@beacongp.com and complete the application process.

ABOUT US:

Beacon Industries has built its reputations within the aerospace industry for being a world class manufacturer of major rotating components, supporting turbine-engine OEM companies around the world. We manufacture and supply our customers with the most complex components, built to their exacting standards, by some of the most experienced people in the aerospace manufacturing industry - and this is the main reason for our continued success.

For over 65 years, our customers have trusted Beacon to manufacture their products. This trust and responsibility has been earned over the years by supplying quality parts, on time, and within budget. Beacon is able to provide this level of service due to its unique capacity in Broaching, Grinding, CNC turning, and (5 axis) milling supporting the manufacturing of small and large parts alike. We have an array of supporting services in-house which include Design, Programming, and Quality Engineering support.

In addition to and in support of our these resources, Beacon has a full complement of precision machinery and conventional equipment paired with an wide selection of in-house services which include CMM, FPI & MPI NDT Inspection, Spin Balance Testing, Shot-Peening, and much more!

Beacon Industries is a privately held, woman-owned company, and is a US DOD classified small business with NADCAP, ISO9001-2008 and AS9100C certifications.

Beacon Industries offers competitive wages and benefit packages plus 401K, tuition reimbursement, and second shift differential pay.

Beacon Industries is an Equal Opportunity Affirmative Action Employer. EOE M/F/D/V

Only those who meet the minimum qualifications will be contacted for an interview.
